■■ COMPLETE ODYSSEY ON-FOOT ENGINEERING, SUIT & WEAPON MODIFICATION DIRECTORY

A current quick-reference handbook for Elite Dangerous: Odyssey on-foot engineering. It covers all 13 Live-only suit and handheld-weapon Engineers: nine in the core inhabited regions and four in Colonia.

1. How Odyssey Engineering Works

Odyssey engineering is separate from ship engineering. You first upgrade a suit or handheld weapon through its normal equipment grades, then an Odyssey Engineer installs **individual modifications** in that item's available mod slots. There is no ship-style Grade 1–5 Engineer reputation ladder, no remote blueprint pinning, and no Experimental Effect slot.

■ CORE RULE

An Engineer's listed options are individual modifications, not a package. Plan the final role of each item before spending rare materials—for example, a Maverick suit may favor backpack capacity and tool-battery efficiency, while a combat suit may favor shield, mobility, or oxygen mods.

The nine core-region Engineers form three independent chains. You can start Hero Ferrari, Jude Navarro, and Domino Green in any order. Complete an Engineer's specific "referral onward" delivery to reveal the next Engineer in that branch.

Core-Region Odyssey Engineer Directory

Engineer & location	Unlock & onward referral	Suit / weapon modifications
Hero Ferrari Nevermore Terrace **Siris**	**Referral:** none. **Unlock:** complete **10 Surface Conflict Zones**. **Onward:** deliver **5 Settlement Defence Plans** for Wellington Beck referral.	**Suit:** Increased Sprint Duration; Improved Jump Assist; Increased Air Reserves. **Weapon:** Faster Handling; Noise Suppressor.
Wellington Beck Beck Facility **Jolapa**	**Referral:** Hero Ferrari. **Unlock:** sell a combined **15** Multimedia Entertainment, Classic Entertainment, and/or Cat Media to bartenders. **Onward:** deliver **5 Insight Entertainment Suites** for Uma Laszlo referral.	**Suit:** Extra Backpack Capacity; Improved Battery Capacity; Reduced Tool Battery Consumption. **Weapon:** Greater Range; Scope.
Uma Laszlo Laszlo's Resolve **Xuane**	**Referral:** Wellington Beck. **Unlock:** reach **Unfriendly** reputation or lower with Sirius Corporation.	**Suit:** Damage Resistance; Faster Shield Regen. **Weapon:** Headshot Damage; Reload Speed; Stowed Reloading.
Jude Navarro Marshall's Drift **Aurai**	**Referral:** none. **Unlock:** complete **10 Restore or Reactivation missions**. **Onward:** deliver **5 Genetic Repair Meds** for Terra Velasquez referral.	**Suit:** Added Melee Damage; Damage Resistance. **Weapon:** Extra Ammo Capacity; Magazine Size; Reload Speed.
Terra Velasquez Rascal's Choice **Shou Xing**	**Referral:** Jude Navarro. **Unlock:** complete a combined **6 Covert Theft and/or Covert Heist missions**. **Onward:** deliver **15 Financial Projections** for Oden Geiger referral.	**Suit:** Combat Movement Speed; Increased Air Reserves; Increased Sprint Duration. **Weapon:** Improved Hip Fire Accuracy; Noise Suppressor.
Oden Geiger Ankh's Promise **Candiaei**	**Referral:** Terra Velasquez. **Unlock:** sell a combined **20** Biological Samples, Employee Genetic Data, and/or Genetic Research to bartenders.	**Suit:** Enhanced Tracking; Improved Battery Capacity; Night Vision. **Weapon:** Scope; Stability.

■■ ODYSSEY ENGINEER NETWORK DIRECTORY

Core-Region Odyssey Engineer Directory (continued)

Engineer & location	Unlock & onward referral	Suit / weapon modifications
Domino Green The Jackrabbit **Orishis**	**Referral:** none. **Unlock:** travel at least **100 ly in Apex shuttles**. **Onward:** deliver **5 Push** for Kit Fowler referral. Your own ship travel does not count.	**Suit:** Extra Backpack Capacity; Reduced Tool Battery Consumption; Enhanced Tracking. **Weapon:** Greater Range; Stability.
Kit Fowler The Last Call **Capoya**	**Referral:** Domino Green. **Unlock:** sell **5 Opinion Polls** to bartenders. **Onward:** deliver **5 Surveillance Equipment** for Yarden Bond referral.	**Suit:** Added Melee Damage; Extra Ammo Capacity; Faster Shield Regen. **Weapon:** Magazine Size; Stowed Reloading.
Yarden Bond Salamander Bank **Bayan**	**Referral:** Kit Fowler. **Unlock:** sell **5 Smear Campaign Plans** to bartenders.	**Suit:** Combat Movement Speed; Improved Jump Assist; Quieter Footsteps. **Weapon:** Audio Masking; Faster Handling; Improved Hip Fire Accuracy.

Core-region referral map

Hero Ferrari → Wellington Beck → Uma Laszlo
Jude Navarro → Terra Velasquez → Oden Geiger
Domino Green → Kit Fowler → Yarden Bond

2. Bartender Economy & Unlock Planning

Many unlocks depend on selling specific **goods** to station bartenders. These are not normal cargo commodities: Odyssey goods are carried in your backpack, have weight and inventory limits, and can be sold only where bartender trading is available. Track each chain's required items before selling rare goods indiscriminately.

A practical sequence: keep the starting Engineer's onward-referral delivery separate from the final Engineer's unlock goods. For example, Domino needs 5 Push to refer you to Kit, but Kit's own unlock is 5 Opinion Polls sold to bartenders.

3. Suits & Weapons

Suits determine tools and base role: **Artemis** supports exobiology, **Maverick** supports settlement access and looting, and **Dominator** focuses on combat. Weapons and suits need to be upgraded independently before receiving multiple modifications. Buy promising pre-upgraded equipment when found, but do not engineer an item until you know its grade and remaining mod-slot capacity.

COLONIA ON-FOOT ENGINEERING DIRECTORY

4. Colonia Odyssey Engineers

The Colonia network works differently. **Baltanos**, **Eleanor Bresa**, and **Rosa Dayette** are independent. Each has a referral task for Yi Shen, and you must complete **all three** referral tasks before Yi Shen becomes available.

Colonia Odyssey Engineer Directory

Engineer & location	Unlock & onward referral	Suit / weapon modifications
Baltanos The Divine Apparatus **Deriso, Colonia**	**Referral:** none. **Unlock:** reach **Friendly** with Colonia Council. **Yi Shen referral:** deliver **10 Faction Associates**.	**Suit:** Improved Jump Assist; Increased Air Reserves; Increased Sprint Duration; Combat Movement Speed. **Weapon:** Noise Suppressor; Improved Hip Fire Accuracy; Faster Handling.
Eleanor Bresa Bresa Modifications **Desy, Colonia**	**Referral:** none. **Unlock:** visit **5 settlements** in the Colonia system. **Yi Shen referral:** deliver **10 Digital Designs**.	**Suit:** Added Melee Damage; Damage Resistance; Extra Ammo Capacity; Faster Shield Regen. **Weapon:** Magazine Size; Reload Speed; Stowed Reloading.
Rosa Dayette Rosa's Shop **Kojeara, Colonia**	**Referral:** none. **Unlock:** sell a combined **10 Culinary Recipes and/or Cocktail Recipes** to stations in the Colonia system. **Yi Shen referral:** deliver **10 Manufacturing Instructions**.	**Suit:** Extra Backpack Capacity; Enhanced Tracking; Reduced Tool Battery Consumption; Improved Battery Capacity. **Weapon:** Greater Range; Scope; Stability.
Yi Shen Eidolon Hold **Einheriar, Colonia**	**Referral:** Baltanos + Eleanor Bresa + Rosa Dayette. **Unlock:** complete all three preceding referral deliveries; no separate fourth item is listed.	**Suit:** Quieter Footsteps; Night Vision. **Weapon:** Audio Masking; Headshot Damage.

Colonia referral map

Baltanos + Eleanor Bresa + Rosa Dayette → Yi Shen
All three referral deliveries are required; completing only one or two will not unlock Yi Shen.

5. Material Discipline

Engineering a suit or weapon consumes materials that are often acquired through settlement containers, mission rewards, salvage, and bartender trade. Keep a written build plan and reserve uncommon items for the Engineers you intend to visit. If you need a particular good for an access task, do not trade or sell it before the requirement is complete.

■■ ON-FOOT BUILD PLANNING & FIELD OPERATIONS

6. Practical Build Planning

Choose modifications by role instead of automatically chasing combat bonuses. A suit engineered for exploration, settlement work, stealth, or conflict zones should emphasize different strengths.

Role	Common priorities	Examples of useful modifications
Exploration / exobiology	Mobility, air supply, and visual awareness	Improved Jump Assist; Increased Air Reserves; Increased Sprint Duration; Night Vision
Settlement / Maverick work	Carry capacity and tool endurance	Extra Backpack Capacity; Reduced Tool Battery Consumption; Improved Battery Capacity; Enhanced Tracking
Combat / Dominator	Survival, movement, weapon reliability	Damage Resistance; Faster Shield Regen; Combat Movement Speed; Extra Ammo Capacity; Reload Speed
Stealth / covert missions	Low profile and reliable close-range weapon handling	Quieter Footsteps; Noise Suppressor; Audio Masking; Improved Hip Fire Accuracy; Faster Handling

Recommended early route

Start with the activity you already enjoy: Frontline conflict zones lead to Hero Ferrari; Restore/Reactivation missions lead to Jude Navarro; Apex shuttle travel leads to Domino Green. Work toward the next referral while gathering that branch's bartender goods, rather than trying to hoard every item at once.

■ CRITICAL ON-FOOT OPERATIONS WARNING

Odyssey goods, data, and assets can be lost or become inconvenient to recover if you sell or discard them prematurely. Before trading at a bartender, compare the item against your active Engineer access tasks and your planned modifications. Carry e-breaches, power regulators, spare energy cells, and medkits when undertaking settlement activities—but observe mission legality and local security status.

Source basis: current Elite Dangerous Field Manual directory of Engineers, current Odyssey unlock entries, and its Live/Odyssey status notes. Requirements reflect reduced post-Update 18.08 values listed in the current directory. This is a player quick-reference document, not an official Frontier publication.
